Claim Rejections - 35 USC § 112

1. Claims 2, 6-8, 12-14, and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2 and 16 the phrase "wave-like" is vague and indefinite.

Claims 6 and 12 are confusing, vague, and indefinite because it is not clear from the specification as to what structures applicant is referring to by such language and therefore it is not clear what structural limitations applicant intends to encompass with such language.

In claims 7 and 13 the phrase "typically selected from.." is confusing, vague, and indefinite.

In claims 8, 14, and 20 the phrase "the flexible material" lacks antecedent basis rendering the claims vague and indefinite.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 4, 6-10, 12-15, and 17-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Birkenstock (3722113) or Hatuno (3757774).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-4, 6-10, and 12-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huang (5839208) in view of either Hatuno, Birkenstock, or Wang (2002/0088140).

Huang shows a shoe comprising a base (7) with wave-like projections (61) in the heel portion substantially as claimed except for providing projections on the bottom of the base. Either Hatuno, Birkenstock, or Wang teaches providing projections (3, 13, or 21) on the bottom of a base as well as providing projections on the top of the base. It would have been obvious to provide bottom projections as taught by either Hatuno, Birkenstock, or Wang in the shoe of Huang to increase massage, cushioning, and/or traction.

Allowable Subject Matter

6. Claims 5 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

1.
